Upcoming Events

- ASCE Board Meeting – November 28, 2001
- For information on ASCE Conferences & Continuing Education pages on the web at www.asce.org/conted or contact Dax Douet at 337-237-2200 or dad@fenstermaker.com.

President's Message

Fellow Branch Members,

First, let me thank all of you for the excellent attendance at the October Meeting. I think you will agree that the food and speaker were great.

As many of you may recall, Jan Robichaux, Past President, asked all of you to make nominations for the Louisiana Top Ten list last year. All of the nominations were sent to the Louisiana Section. The nominations were then voted on by branch board members to create a short-list of projects that will be voted on by a Selection Committee within each Branch. The Acadiana Branch needs four members to volunteer to be a part of the Selection Committee. The Committee, consisting of three members and one alternate, will communicate via e-mail and or fax so that

no meetings between the Committee members will need to take place. Ideally, the committee will be comprised of Branch members from various communities within the Acadiana Branch. If you are interested in participating on this committee please contact any of the Acadiana Branch Officers.

The Louisiana Section will be creating an award to Honor those Engineers that have made our State a better place to live. The Geography of the Acadiana Branch is such that it would be easy to overlook a very deserving candidate. I ask all of you to think back to those individuals that have made a difference in your career or your community and nominate them for this award. Please remember that the only criteria for this award is that the recipient, deceased or living, must have been a Civil Engi-

neer and that membership in ASCE does not affect an individual's eligibility for this award. Nominations for this distinction will be taking at our November 15, 2001 branch meeting. If you are not able to attend and want to nominate someone, please contact a board member.

In closing, I want to remind all of you that the Acadiana Branch will host this year's Spring Conference. The Louisiana Section has asked that the Acadiana Branch make this a very special conference in celebration of the 150th Anniversary. The Board of Directors for the Acadiana Branch is in the process of lining up speakers for the Conference. If there are any topics that you would like to have presented at the Conference, please contact a board member.

Glenn McCall, P.E.

November Branch Meeting

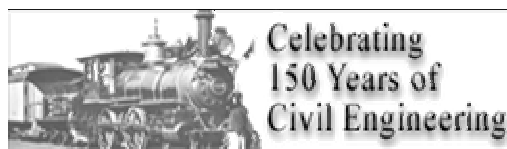

DATE: Thursday, November 15, 2001
LOCATION: City Club of Lafayette
 600 Jefferson Street
 Lafayette, LA
TIME: 12:00 PM
DINNER: Lunch Buffet
PRICE: \$ 12.00 for Professional / \$6.00 for Student

GUEST SPEAKER: Tony Tramel, P.E., P.T.O.E.
TOPIC: "What Every Civil Engineer Needs To Know About Traffic Engineering"
 * Please RSVP with Nikki or Larry at 337-232-0770, by Tuesday, November 13, 2001

135 Regency Square
Lafayette, LA. 70505

Civil Engineers - Designers and Builders
of the Quality of Life

October Spotlight

The October ASCE Acadiana Branch Meeting held on October 18, 2001, was a big success with an above average attendance. The board would like to thank everyone who attended.

Some of you may have noticed that the Acadiana Branch purchased an American flag to be displayed at every branch meeting. The board felt that because of the professional status and national exposure of the

organization and the recent tragedies over that past couple of months, an American flag needed to be displayed.

Branch News

The Acadiana Branch of ASCE will be hosting this year's Spring Conference. The Louisiana Section has asked that the Acadiana Branch make this a very special conference in celebration of the 150th Anniversary. The Board of Directors for the Acadiana Branch is in the process of lining up speakers for the Conference. If anyone has any special topics of interest that may be beneficial to the profession, please email them to Dax Douet at

dad@fenstermaker.com. The main focus of the Spring Conference is to try to touch on each different concentration within the Civil Engineering profession, as well as to have a conference that everyone can enjoy and benefit from. The tentative dates for the Spring Conference are April 11 and 12, 2002.

The Acadiana Branch would also like to thank John Bosch for attending and representing the branch at the National Conference held in Houston, Texas this past month.

The Acadiana Branch is also concentrating on re-

cruiting new members to the organization as well as encouraging former members to become involved again. Jessica Cornay has been nominated as the new Membership Chairperson and will head up this effort to bring new faces to the organization. Jessica will concentrate on recruiting not only new members, but Civil Engineers within the oilfield community, which is a vital component to our profession within this area of the state. If anyone knows of a Civil Engineer or Engineer Intern that would be interested in joining ASCE, please contact Jessica Cornay at jsc@fenstermaker.com.

Louisiana Section News

The Louisiana Section has been very active in preparing for the 150th Anniversary Celebration. In an effort to increase public awareness in this State, several award programs have been implemented. The first award will recognize the top ten engineering projects within the State of Louisiana. The second award is intended to recognize Civil Engineers that have made a significant impact on our State. The Board Members of the Acadi-

ana Branch needs help from fellow Branch Members for both of these projects by placing your nominations at our next branch meeting.

The Louisiana Section is also looking for individuals to serve on the Design-Build Task Force Committee. Legislation is being considered to mandate how design-build contracts will be awarded for state projects. Anyone interested in participating should contact a branch officer.

Student News

The ASCE Student Chapter at UL Lafayette has enjoyed an active fall semester thus far. Preparation have already begun for the Steel Bridge and Concrete Canoe competitions. The Civil Engineering students recently placed 4th in both LES Soccer and Flag Football tournaments. Upcoming events include an LES Volleyball Tournament and an ASCE Student Chapter meeting on November 15th at 5:30 p.m. in Room 201 Madison Hall. All are invited to attend.
